

## **ALPHA DIAGNOSTICS JOINS ASCENZ'S PREMIUM PARTNERSHIP PROGRAM**

**2 May 2019** – Effective 1 April 2019, Ascenz Solutions Pte Ltd and Alpha Diagnostics Ltd have entered into the Premium Partnership Program to promote the use of latest generation condition monitoring equipment in the maritime and offshore industries. The partners will work together to integrate Alpha Diagnostics' technology into Ascenz's Shipulse platform for vessel management to enable customers to boost efficiency and increase cost savings. Alpha Diagnostics' on-board solutions are able to reliably analyse the condition of main and auxiliary engines and other rotating equipment using a minimum amount of sensor signals. Both partners look forward to this complementary partnership and are convinced that they will benefit from the joint efforts.

### **About Ascenz ([www.ascenz.com](http://www.ascenz.com))**

Ascenz is a globally trusted provider of premium, end-to-end solutions for the maritime industry. With more than a decade of experience and an established foothold in Asia, we provide intuitive, agile and forward-looking smart shipping solutions and services tailored for offshore, ocean-going, bunkering and Liquefied Natural Gas (LNG) segments. We spearhead the push for rapid digitalization within the maritime industry.

As part of the GTT Group, an international frontrunner in technological solutions for storage and shipping of liquefied gas, particularly LNG, our solutions are aligned with industry trends. We empower and assist users by streamlining processes, increasing both efficiency and sustainability of processes.

Through its Premium Partnership Program, Ascenz is leading the creation of a global alternative digital ecosystem to accompany maritime players in their data and digital journey.

**About Alpha Diagnostics ([www.alphadiagnostics.ch](http://www.alphadiagnostics.ch))**

Alpha Diagnostics Ltd is a global engineering company offering non-invasive diagnostic systems for combustion engines and rotating machines. Our solutions enable customers to implement effective preventive maintenance strategies in various markets worldwide.

Currently deployed in maritime, railway, industrial as well as oil & gas applications, Alpha Diagnostics solutions are the key to achieving savings on fuel consumption, CO2 emissions, maintenance hours and unplanned downtimes.
